

The background of the advertisement is a photograph of a white hydrogen transport trailer. The trailer has 'HYDROGEN, COMPRESSED' and a hazard diamond with '1049 2' printed on it. The BayoTech logo and 'HyFill' branding are visible on the trailer's side. A white rounded rectangle in the top left corner contains the BayoTech logo. Large white text is overlaid on the center of the image, and a blue and yellow graphic is in the bottom right corner.

Unlocking Reliability: BayoTech's Service and Maintenance Assurance

BayoTech recognizes that unexpected downtime can be both costly and disruptive to your operations. To address this challenge, take advantage of our Service and Preventative Maintenance Program to ensure the seamless operation of your gas storage pods.

THREE PILLARS:

Maximizing Uptime

Anticipate and address potential issues before they evolve into operational challenges.

Keep your equipment running at its peak to ensure uninterrupted productivity.

Prioritizing Safety

Implement stringent safety checks designed to safeguard your operations against potential hazards.

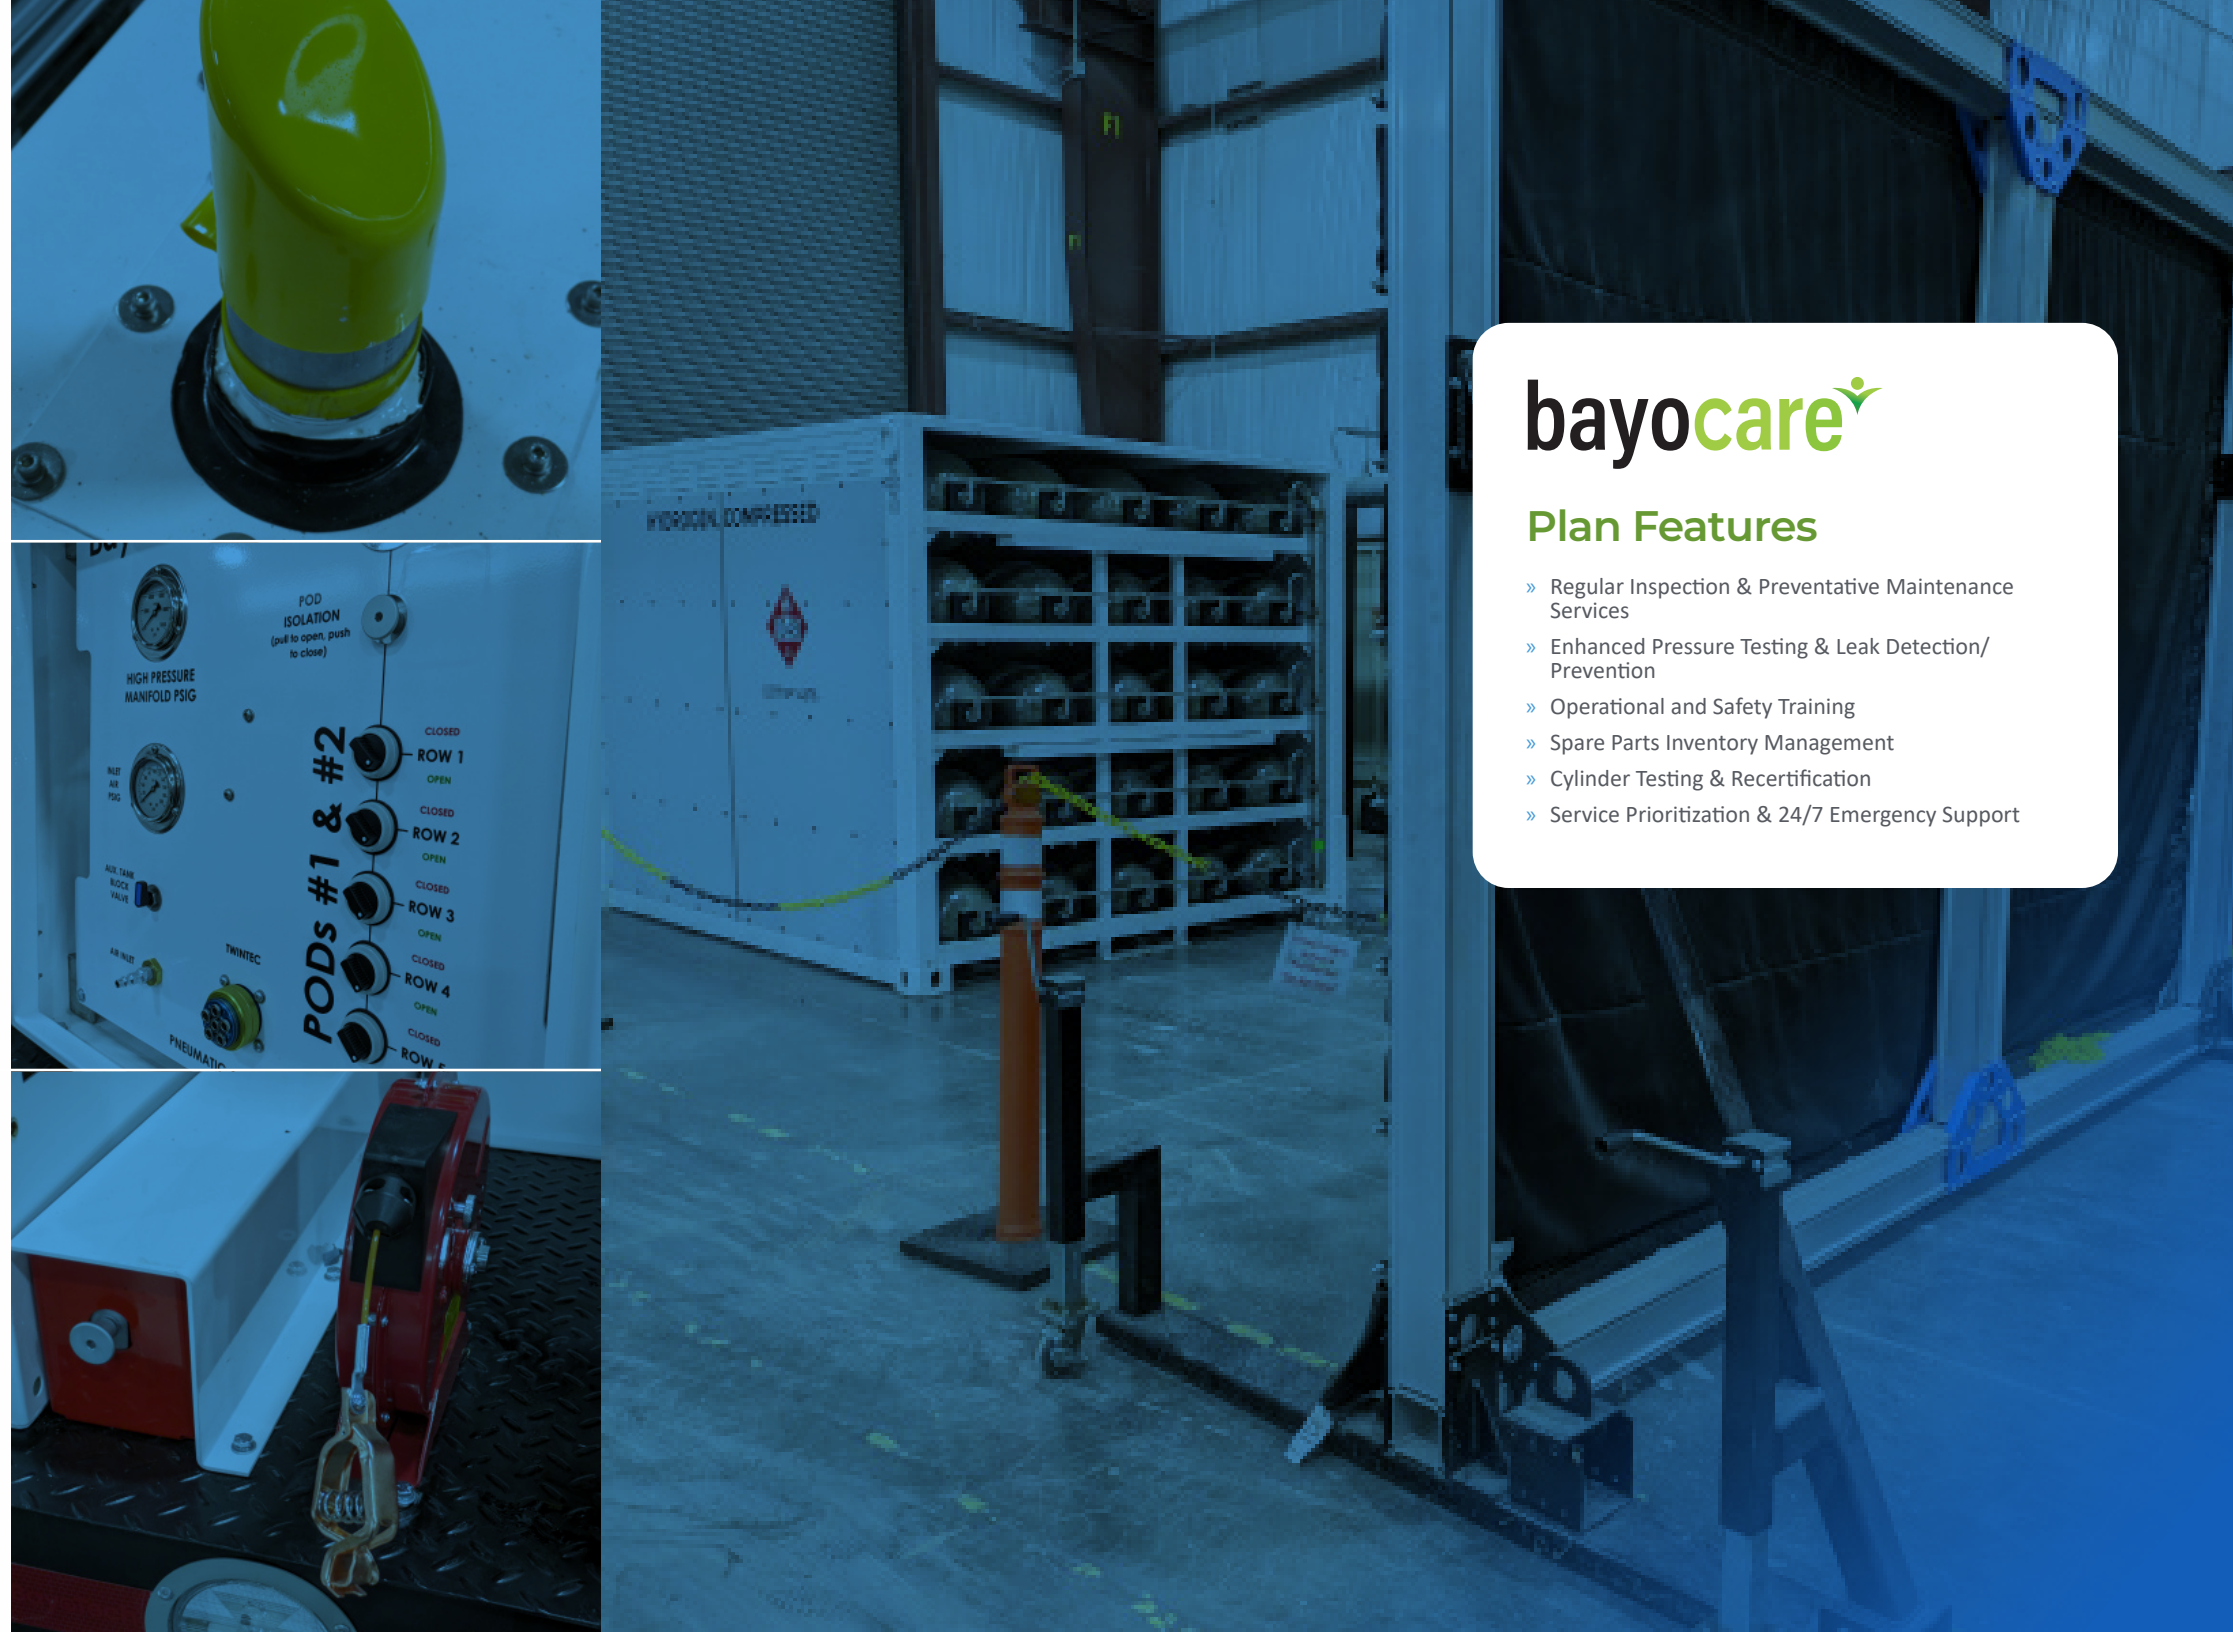

Uphold the highest safety standards, protecting both your assets and your team.

Minimizing Cost

Extend the life of your gas storage pods through preventative maintenance.

Avoid costly repairs and replacements by addressing issues before they escalate.

bayocare⁺

Plan Features

- » Regular Inspection & Preventative Maintenance Services
- » Enhanced Pressure Testing & Leak Detection/Prevention
- » Operational and Safety Training
- » Spare Parts Inventory Management
- » Cylinder Testing & Recertification
- » Service Prioritization & 24/7 Emergency Support

Unlocking Operational Confidence

With BayoCare, we stand by you at every turn, fortifying your operations and empowering your success with benefits like:

Regular Inspection & Preventative Maintenance Services

Maximize cost with our proactive approach. BayoCare initiates regular inspections, meticulously identifying potential issues before they manifest into operational disruptions. Our preventative maintenance services are strategically tailored to enhance the performance and longevity of your gas storage pods, ensuring it operates at its peak efficiency.

Enhanced Pressure Testing & Leak Detection/Prevention

Our program includes rigorous pressure testing and leak detection/prevention protocols, providing an extra layer of protection for your assets and personnel. We go beyond compliance, ensuring your operations adhere to the highest safety standards in the industry.

Cylinder Requalification Services

BayoTech specializes in DOT authorized cylinder requalification in accordance with Federal and State regulations. Technicians are trained and certified in the inspection, maintenance, and certification of high-pressure gas cylinders.

Operational and Safety Training

Benefit from our comprehensive operational and safety training, equipping your team with the skills and insights needed to navigate the complexities of gas transport and storage operations. Our training programs enhance safety awareness and operational proficiency.

Service Prioritization & 24/7 Emergency Support

Gain peace of mind knowing that our program is designed to address your needs promptly and efficiently. BayoCare members receive prioritized service, minimizing downtime and reducing the long-term costs associated with unexpected operational disruptions. Additionally, our 24/7 emergency support ensures that assistance is just a call away.

COMPRESSED GAS STORAGE PODS

Industrial gas distributors throughout the United States trust BayoTech's high-pressure gas transport and storage equipment to deliver high volumes of gases safely, reliably and efficiently.

With over 800 units delivered, BayoTech is the leader in manufacturing composite cylinder-based gas storage pods. We specialize in innovation to the point of designing and manufacturing the best valves and thermal protection systems in the industry. This innovation is driven by listening to our customers and being a solution provider, not just another vendor.
